

## Electrical equipment deviates

### Dispositifs de l'installation électrique

1. Horn - 2. Front turn signal lamps, 12V-10W bulbs
- 3. 12V-15W bulb (low beam) - 4. 12V-4W bulb (town light) - 5. Tail light lamps, 12V-1.2W bulbs -
6. Light switch with starting push but  $\nabla$  7. In signal lamps switch with horn push button - 8. Safety switch - 9. Key of started switch - 10. Flasher switch - 11. 7.5A fuse - 12. Stop switch - 13. Start switch remote control switch - 14. Fuel level indicator - 15. Starting motor - 16. Voltage regulator - 17. 12V-5Ah battery - 18. Electronic control box - 19. Sparking plug - 20. Flywheel magneto - 21. Rear turn signal lamps, 12V-10W bulbs - 22. Tail lamp, 12V-10W bulb (stop light) and 12V-4W bulb (parking light).

**Caution:** During possible interventions to the electrical equipment **care especially** the correct connection of the cables which end to the electronic control box, by respecting the colours on the control box itself.

**Avertissement important:** En cas d'interventions éventuelles à l'installation électrique, s'assurer en particulier, du branchement correct des conducteurs qui aboutissent au bloc électronique, en respectant les couleurs qui se trouvent sur le bloc même.
