

3 Decomposição de números

- Pintar os círculos com duas cores diferentes, de acordo com a decomposição do 2, do 3, do 4 e do 5. Completar.

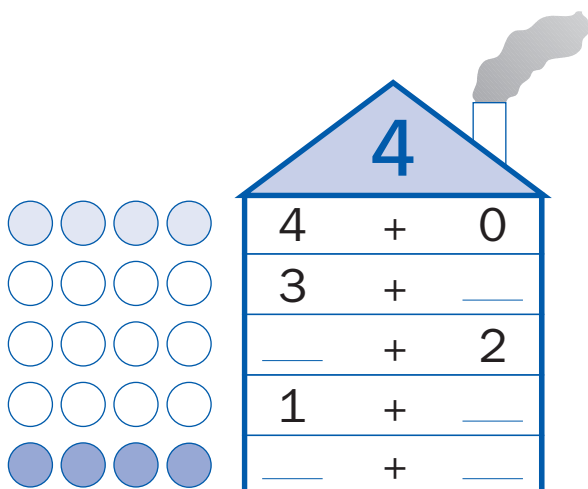

House with number 2. To the left are 6 circles arranged in a 3x2 grid. The house has a chimney with smoke. Inside the house, there are three rows of addition problems:

2	+	0
1	+	___
0	+	___

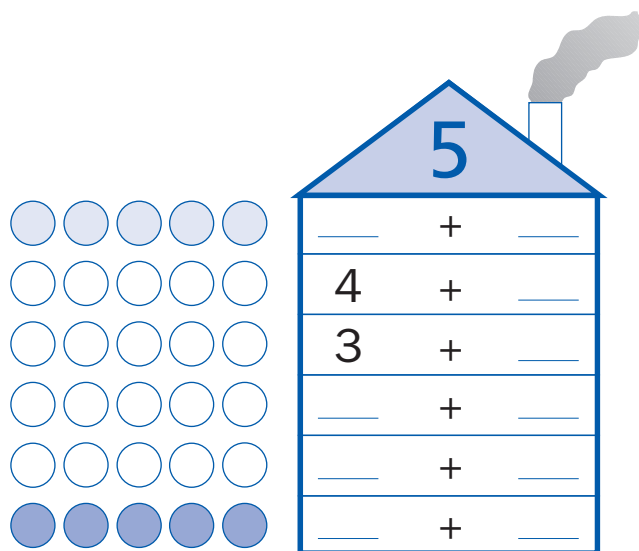

House with number 3. To the right are 9 circles arranged in a 3x3 grid. The house has a chimney with smoke. Inside the house, there are four rows of addition problems:

3	+	0
2	+	___
1	+	___
0	+	___

House with number 4. To the left are 14 circles arranged in a 5x4 grid. The house has a chimney with smoke. Inside the house, there are five rows of addition problems:

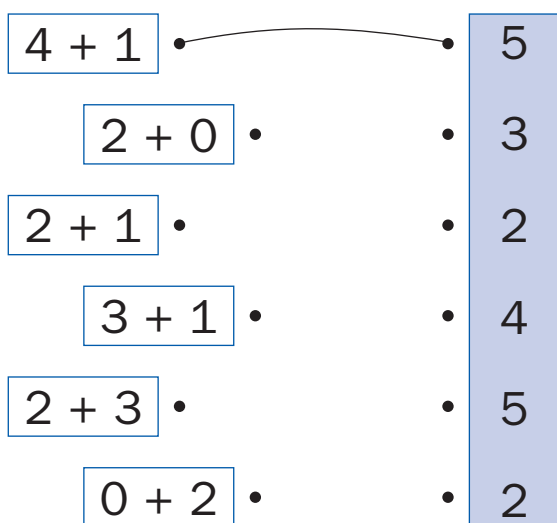

4	+	0
3	+	___
___	+	2
1	+	___
___	+	___

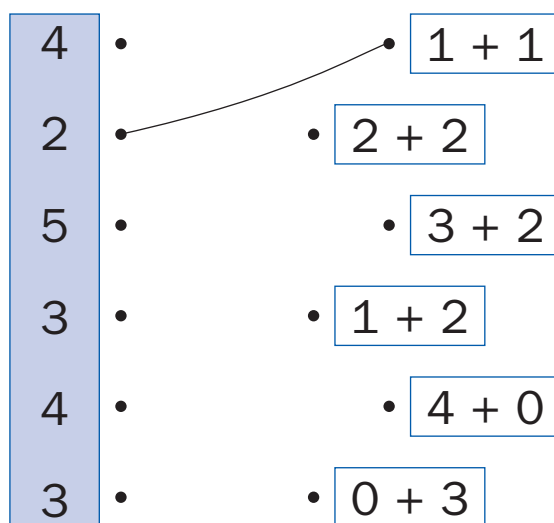

House with number 5. To the left are 20 circles arranged in a 5x4 grid. The house has a chimney with smoke. Inside the house, there are six rows of addition problems:

___	+	___
4	+	___
3	+	___
___	+	___
___	+	___
___	+	___

- Calcular e ligar ao resultado certo.

Matching exercise 1. On the left, a list of addition problems: $4 + 1$, $2 + 0$, $2 + 1$, $3 + 1$, $2 + 3$, and $0 + 2$. On the right, a vertical list of numbers: 5, 3, 2, 4, 5, and 2. A line connects $4 + 1$ to the number 5.

Matching exercise 2. On the left, a vertical list of numbers: 4, 2, 5, 3, 4, and 3. On the right, a list of addition problems: $1 + 1$, $2 + 2$, $3 + 2$, $1 + 2$, $4 + 0$, and $0 + 3$. A line connects the number 2 to $1 + 1$.
