VINEYARD DESCRIPTION

GPS Location | 41°09'15.8"N 7°35'54.6"W

Quinta wine | The grapes come from of a plot located in Quinta do Pôpa, in the sub-region of Coma Corgo.

Varietals | More than 21 different varieties make part of this parcel's field blend.

Plot size | 1.32 ha

Grapevines number | 7.500

Altitude | 80 to 150 meters

Soil Geology | schist

Solar Exposure | North East

Year planted | <1932

HARVEST 2019

The harvest started slightly later than usual compared to the average date in recent years. The good sanitary quality of the bunches allowed us to wait for the excellent maturation of the grapes. The good weather conditions of the year positively impacted the harvest, providing high-quality musts, generally with higher acidity and a good level of phenolic compounds.

VINIFICATION

Reception of grapes in 20 kg boxes with total stemming and no crushing. The whole bunches were received in lagares where they were subsequently crushed using the traditional method of foot treading. Alcoholic fermentation took place entirely in lagar/mills and malolactic fermentation in stainless steel tanks and French oak barrels.

AGING

65% aged in new barrels for seven months and 20% in used barrels for ten months, all French oak and 225 litres.

The remaining 15% in stainless steel vats.

BOTTLING

Date | Agosto 2023

Bottle | Bordalesa Golia 75 cl Cuvée / Magnum Bordalesa Golia 150 cl Verdetrusco

Cork | Natural cork

Aging in bottle for 1 to 4 years in the cellar before selling.

i

Nº of Bottles 750 ml

2.524 Units.

Nº of Bottles 1,5 Lt

151 Units.
