TESTS

Test carried out in the laboratory

Attention to ensure stability under a vertical pressure, the part must be stabilized according to point 7.2 of EN 1730:2012. To do this, inert material (es. dried sand) must be poured into the hole at the bottom of the base. The amount of the material will vary according to the article:

art. A4490 - A4491 Ø70 cm - kg 9

art. A4494 - A4495 Ø80 cm - kg 12

art. A4488 - A4489 70x70 cm - kg 15

art. A4492 - A4493 80x80 cm - kg 27

Alternatively it is necessary to apply the stabilization base Ø 51 cm (A4197 or A4194) on the bottom of the plastic product without introducing inert material (dried sand).

Finally, close the hole by screwing the threaded cap back on.

POLIETILENE

Evitare gli accumuli di polvere e di sporco sulle superfici. Pulire periodicamente il prodotto con una spugna bagnata con acqua e detergente liquido neutro e risciacquare con una spugna e acqua. Asciugare con un panno. Si raccomanda di evitare l'utilizzo di detersivi o detergenti contenenti solventi e/o alcol etilico. In caso di sporco ostinato richiedere il detergente Euro3plast. Le versioni laccate sono adatte per uso esterno ma più sensibili ai graffi, per questo si consiglia di pulire la superficie dell'articolo delicatamente, con l'utilizzo di pasta tipo "car-polish". Per la pulizia dell'articolo e la rimozione della polvere usare un panno in microfibra bagnato, ripassare poi con un panno morbido ed asciutto. L'esposizione continua e prolungata ai raggi solari può causare l'alterazione del colore e della finitura originale dell'articolo.

POLYETHYLENE

Avoid the build-up of dirt and dust on the surfaces. Periodically clean with a water-damped sponge and mild liquid detergent, and rinse with clean water. Dry with a cloth. Avoid using cleaners or detergents containing solvents and/or ethyl alcohol. For stubborn stains, use the special Euro3plast detergent. Lacquer versions are suitable for external use but more susceptible to scratches. We therefore recommend cleaning gently with a car-polish type of cream. To clean the product and remove the dust, use a damp microfiber cloth. Then dry with a soft dry cloth. Constant lengthy exposure to direct sun can cause alteration of the article's color and original finishing.

LEGNO

I piani e le parti in legno degli articoli sono trattati con vernici protettive a base acqua. Gli agenti atmosferici e la luce solare sono cause naturali dell'alterazione della colorazione del legno, causandone il naturale invecchiamento. La pulizia delle superfici verniciate con prodotti all'acqua deve essere fatta con detergenti neutri (quindi non a base di acidi, ammoniaca o candeggina), non abrasivi e privi di solventi; in particolare evitare l'uso di prodotti contenenti alcol o acetone. Per proteggere il legno e mantenere viva la colorazione uniforme nel tempo e per evitare l'aggressione da parte di insetti xilofagi, pulire e trattare periodicamente il piano con prodotti specifici per legno a base acqua, seguendo le istruzioni riportate sul prodotto protettivo da voi acquistato. Destinato all'utilizzo in ambiente esterno coperto. Non esporre alle intemperie.

WOOD

The wooden surfaces and the parts of the items are treated with water-based protective varnishes/paints. Atmospheric agents and sunlight are natural causes of changes in wood tones, causing them to age naturally. Cleaning the coated surfaces with water-based products must be done using neutral non-abrasive detergents that contain no acids, ammonia, bleach or solvents; in particular, avoid using products containing alcohol or acetone. To protect the wood, keeping its color uniform over time and avoid attacks from wood-boring insects, clean and treat the surface periodically with specific products for wood to base it waters, following the instructions of product you have purchased. Intended for use in covered outdoor environments. Do not expose to the elements.

LAMINATO AD ALTA PRESSIONE (HPL)

I piani in laminato ad alta pressione (HPL) devono essere utilizzati con la stessa cura dedicata alle altre comuni superfici degli arredamenti da interni e esterni. È buona pratica mantenere i piani sempre puliti e rimuovere periodicamente lo sporco/polvere che si deposita sulla superficie. Per la pulizia utilizzare un panno morbido e umido con un detergente non abrasivo per la pulizia delle comuni superfici domestiche diluito in acqua. Non usare assolutamente sostanze abrasive e/o spugne graffianti. Risciacquare con un panno bagnato e asciugare.

HIGH-PRESSURE LAMINATE (HPL)

The surfaces in HPL must be used with the same care dedicated to other common surfaces of internal and external furniture. It is good practice to keep the surfaces always clean and to periodically remove dirt/dust that builds up on them. For the cleaning to use a cloth soft and umido with un Detergent not abrasive for the cleaning of the municipalities surfaces domestic iron in water. Never use abrasive substances and/or sponges that scratch. Rinse with a damp cloth and then dry.

IMBOTTITI

Agli imbottiti in tessuto tecnico, ecopelle e tessuto 100% acrilico Sumbrella® dovrà essere riservata cura e attenzione. Pulire periodicamente la superficie con un panno umido, non abrasivo usando acqua e sapone neutro, risciacquare e lasciare asciugare bene. Non usare solventi, detergenti chimici, pulitrici a vapore. Controllare e rimuovere tempestivamente eventuale sporco quale: foglie, fiori, insetti. Lo sporco vegetale, il polline dei fiori ed il residuo di insetti, combinato all'umidità e all'acqua potrebbe creare delle macchie che penetrano nella struttura del rivestimento in ecopelle e tessuto tecnico, diventando difficili da rimuovere. Per una più agevole pulizia degli imbottiti rivestiti in 100% acrilico Sunbrella, è possibile sfoderare il cuscino. Il lavaggio a macchina delle due parti separate è efficace ad una temperatura massima di 30°, senza prelavaggio e senza centrifuga rapida. L'asciugatura si effettua all'aria aperta.

UPHOLSTERY

Upholstery made of technical fabric, imitation leather and fabric 100% acrylic Sumbrella® requires care and attention. Clean the surface periodically with a damp non-abrasive cloth using neutral soapy water; rinse and allow to fully dry. Do not use solvents, chemical detergents or steam cleaners. Check for, and remove as soon as possible, soiling such as: leaves, flowers, insects. Vegetable soiling, flower pollen and remains of insects combined with moisture and water, they can bring stains that penetrate the imitation leather and technical fabric and prove difficult to remove. For more practical cleaning of upholstery covered in 100% acrylic Sunbrella, you can remove the cushion cover.

Machine-washing of the two separate parts is effective at a maximum temperature of 30 °C, without pre-washing, and with no fast spin-drying. Dry in the open air.

Materiali/ Materials

I prodotti PLUST Collection sono realizzati con resine termoplastiche (PE), un materiale che garantisce un'incredibile resistenza agli urti, ai raggi ultravioletti e a tutte le temperature (-65°, +85°).

Tutti gli articoli della collezione, a fine vita, sono interamente riciclabili.

All PLUST Collection products are made in thermoplastic resins (PE), a material that provides excellent resistance to weather (-65° +85°), breakages and ultraviolet rays.

All PLUST Collection products are completely recyclable at end of life.

Avvertenze e precauzioni per l'uso/ Warnings and precautions on use

Il prodotto deve essere collocato su una superficie piana. Non appoggiare oggetti lateralmente in quanto può perdere la stabilità e ribaltarsi. Non salire in piedi e utilizzare il prodotto come scala. Prestare attenzione in presenza di bambini. L'esposizione continua e prolungata ai raggi solari può causare l'alterazione della finitura originale. Il contatto con fonti di calore, stufe, caminetti, radiatori e con agenti chimici, prodotti per la pulizia diversi da quelli consigliati, possono danneggiare l'articolo. Allontanare i sacchetti in plastica appena disimballato il prodotto in quanto in presenza di bambini possono rappresentare un pericolo se utilizzati per gioco (pericolo soffocamento).

This product must be placed on a level surface. Do not lean objects against the sides in case it tips over. Do not step onto the product and try to use it as steps. Take care when there are children around. Continuous and prolonged exposure to sunlight may cause changes to the original finish. Contact with sources of heat, heaters, fireplaces, radiators, chemicals and non-recommended cleaning products may damage the article. After unpacking immediately remove any plastic bags, which could be a danger to children (danger of suffocation if the child plays with it).

Avvertenze luci/ Warnings lights

In caso di sostituzione della lampadina, assicurarsi che la presa di corrente sia scollegata.

Collegare la spina dell'apparecchio in una presa collocata in un luogo protetto dalla pioggia e dagli spruzzi d'acqua.

Se il cavo flessibile esterno di questo apparecchio viene danneggiato, deve essere sostituito esclusivamente dal costruttore, dal suo servizio di assistenza, o da personale qualificato equivalente, al fine di evitare pericoli.

Nelle versioni sprovviste di interruttore sul cavo di alimentazione, collegare la spina dell'apparecchio sotto una presa comandata da interruttore.

Si sconsiglia l'utilizzo e/o l'installazione dei prodotti luminosi su superfici/pavimentazioni non solide (sabbia, terra, erba, sassi, ghiaia, ecc.). Inoltre, i prodotti luminosi non dovranno essere installati in prossimità (adiacenti e sullo stesso piano) di piscine e/o ambienti d'acqua.

Nel caso in cui il RGB LED LIGHT KIT venga smontato dal corpo lampada, evitare il contatto diretto dello sguardo con i LED accesi.

Gli oggetti luminosi, se allestiti con terra, piante e/o vasi, dovranno essere fissati al suolo con i nostri sistemi di ancoraggio, ove previsti.

L'articolo Rebelot Ø135 in versione light non può essere allestito con terra, piante, vasi o con oggetti vari.

Euro3Plast S.p.A. declina ogni responsabilità per danni causati a cose o a persone da un uso improprio del prodotto.

Before replacing a bulb make sure that the power plug has been disconnected.

Connect the plug of the appliance to a power outlet that is located in a sheltered position, protected from rain and water splashes.

If the external flexible cable of this appliance is damaged it must be replaced by either the manufacturer, the manufacturer's customer assistance service or by equivalent qualified personnel, in order to prevent possible hazards.

For models that are not equipped with an inline on/off switch, connect the plug of the appliance to a switch controlled outlet.

The use and/or installation of illumination devices on instable surfaces/floors or pavement (sand, soil, grass, stones, gravel, etc.) is discouraged. Neither must illumination devices be installed near (adjacent to or on the same level as) swimming pools and/or other water environments.

If removing the RGB LED LIGHT KIT from the lamp structure, avoid direct eye contact with the LEDs if lit up.

If light articles are set up with earth, plants and/or vases, they must be secured to the ground with our anchoring systems, where provided.

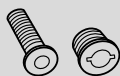

The Rebelot Ø135 in light version cannot be set up with earth, plants, vases or various other objects.

Euro3Plast S.p.A. cannot accept liability for any damage caused to things or persons by an incorrect use of the product.
