LED RANGE

START FLOOD
Slimline, durable and high performance LED floodlights

The new **Start Flood** range of exterior LED floodlights incorporates the latest high powered COB LED technology into a slimline die-cast aluminium body. The standard floodlight version is IP65 weatherproof (PIR IP44) and is available in both 3000K and 4000K. All products include 1m stripped cable making the product quick to install while the PIR version comes with a 8m range and 120 detection angle

Ideal for residential or small business premises, these slimline floodlights have been designed to be more aesthetically pleasing than the standard large and bulky floodlight. The PIR version has the PIR incorporated into the floodlight reducing the footprint of the product. The PIR also has adjustable lux and time levels allowing the PIR to trigger the floodlight in certain light levels and for a predetermined amount of time.

The range is available in 10W, 26W and 50W which are direct replacements for the light output of the standard floodlight halogen R7s (48W, 120W and 230W) but with at least 80% of the energy savings.

START FLOOD
Slimline, durable and high performance LED floodlights

FEATURES

- Slimline exterior LED floodlight with/without PIR
- Ideal for residential or small office/warehouse applications
- Durable die-cast aluminium body with tilting bracket
- IP65 weatherproof (IP44 Sensor)
- Adjustable lux (0 to 1000lux) and time levels (10 secs to 12min)
- Direct replacement for energy inefficient Halogen R7s (10W = 48W / 26W = 120W / 50W = 230W)
- High lumen efficacy of up to 94lm/W
- Lifetime : 30.000hrs
- Quick and easy to install as includes 1m pre-wired stripped cable and fittings

Includes 1m pre-wired cable

Slimline floodlight
