

## Algoritmo da adição (sem transporte)

**Não te esqueças!**

**Primeiro adiciona as unidades e só depois as dezenas.**

- Observa o exemplo.

$$33 + 15 = (30 + 10) + (3 + 5) = 40 + 8 = 48$$

	D	U
	3	3
+	1	5
	4	8

- Calcula e completa.

$$75 + 24 = (\underline{\quad} + \underline{\quad}) + (\underline{\quad} + \underline{\quad}) = \underline{\quad} + \underline{\quad} = \underline{\quad}$$

	D	U
	7	5
+	2	4
	_____	_____

$$87 + 11 = (\underline{\quad} + \underline{\quad}) + (\underline{\quad} + \underline{\quad}) = \underline{\quad} + \underline{\quad} = \underline{\quad}$$

	D	U
	8	7
+	1	1
	_____	_____

$$65 + 24 = (\underline{\quad} + \underline{\quad}) + (\underline{\quad} + \underline{\quad}) = \underline{\quad} + \underline{\quad} = \underline{\quad}$$

	D	U
	_____	_____
+	_____	_____
	_____	_____
