

## Números pares e números ímpares

- Efectua os cálculos e regista os resultados. Completa o diagrama com os respectivos números. Observa o exemplo.

$$10 + 5 = 15$$

$$91 - 21 = 70$$

$$64 - 11 = 53$$

$$20 + 16 = 36$$

$$20 + 4 = \underline{\hspace{2cm}}$$

$$73 - 5 = \underline{\hspace{2cm}}$$

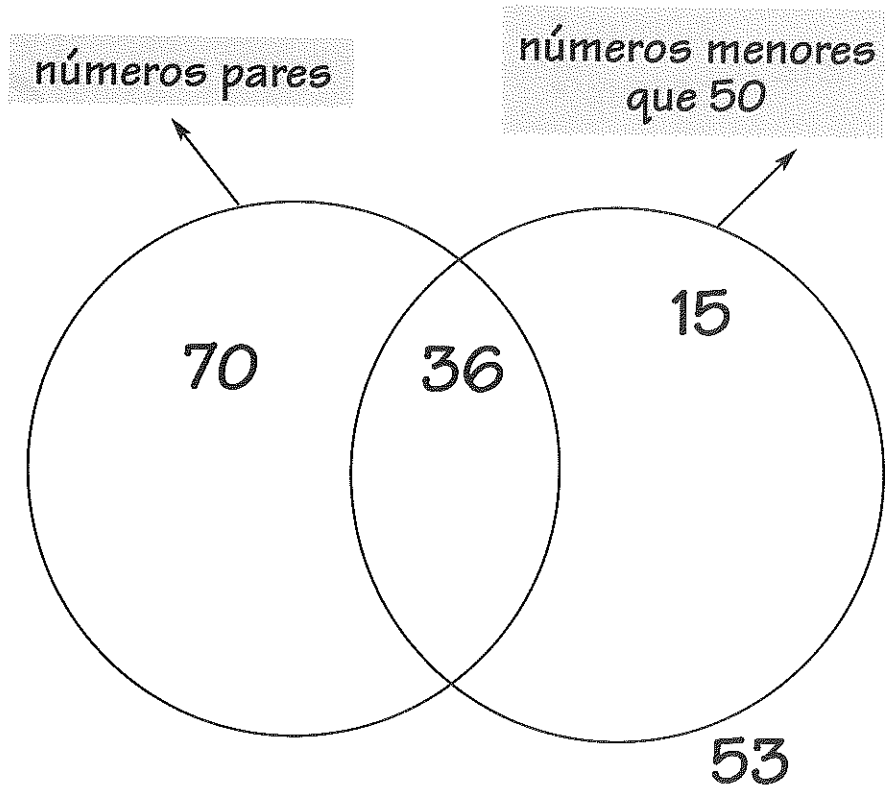

$$44 - 9 = \underline{\hspace{2cm}}$$

$$77 - 10 = \underline{\hspace{2cm}}$$

$$31 + 11 = \underline{\hspace{2cm}}$$

$$77 + 21 = \underline{\hspace{2cm}}$$

$$60 + 31 = \underline{\hspace{2cm}}$$

- Calcula. Completa.

$$10 + 5 = \underline{\hspace{2cm}}$$

$$25 - 6 < \underline{\hspace{2cm}}$$

$$44 - 8 < \underline{\hspace{2cm}}$$

$$99 - 9 > \underline{\hspace{2cm}}$$

$$34 - 12 > \underline{\hspace{2cm}}$$

$$47 + 12 = \underline{\hspace{2cm}}$$

$$88 - 18 = \underline{\hspace{2cm}}$$

$$115 - 10 = \underline{\hspace{2cm}}$$

$$26 + 12 > \underline{\hspace{2cm}}$$

$$36 - 5 > \underline{\hspace{2cm}}$$

$$54 + 21 > \underline{\hspace{2cm}}$$

$$112 - 11 = \underline{\hspace{2cm}}$$

$$144 - 104 = \underline{\hspace{2cm}}$$

$$186 - 82 > \underline{\hspace{2cm}}$$

$$127 - 21 < \underline{\hspace{2cm}}$$
